NAVSHIPS 900,000.2

PREFACE

The Electronics Installation and Maintenance Book (EIMB), NAVSHIPS 900,000, provides subordinate policies, installation and maintenance standards, and procedures required to implement the policies of Chapter 67 of the Bureau of Ships Technical Manual.

The EIMB is published for the guidance of all personnel in the naval establishment in accordance with articles 67-2 and 67-55 of the Bureau of Ships Technical Manual.

Change 29, issued 31 August 1961, reorganized the EIMB into seven chapters. One chapter contains general information, five chapters contain general information and service notes pertaining to specific types of equipment, and one chapter comprises the Field Change Identification Guide (FCIG). As a further step in this reorganization, each chapter of the EIMB is being reissued as a separate item of supply with its own decimal NAVSHIPS number.

The Radar Chapter, NAVSHIPS 900,000.2, is in effect upon receipt, superseding Change 21 and the following pages of Change 29:

- 1. EIMB Radar Title Page
- 2. Effective Pages and Contents, page 3-ii
- 3. Radar Chapter, pages 3-1 through 3-21
- 4. Service Notes Title Page Radar

Activities should submit comments and recommendations regarding this publication to Chief, Bureau of Ships (Code 695D3).

Activities should submit requisitions for additional copies of this publication to Naval Supply Depot, Philadelphia, Pennsylvania.

Activities not already on the distribution list for the EIMB should submit requisitions for this publication to Chief, Bureau of Ships (Code 248).
